Subject: BPA for Taxi Hailing service

The American Embassy intends to issue a Blanket Purchase Agreement (BPA) for on-call provision of taxi services via an App.

The Embassy requires a supplier who can provide an app-based system which allows real-time and pre-scheduled hailing of licensed London official “Black Cab” taxis. Payment for journeys made will be by a monthly consolidated invoice so that there is no need for individual travelers to make a real-time payment for their journey.

Only companies or individuals specializing in this field should apply.

The estimated total value of this work is approximately GBP £130,000. It is now compulsory for all companies doing business with the U.S. Government valued over USD \$30,000 to register on a website called “SAM – System for Award Management” at www.sam.gov. The website compiles standard information such as a company’s legal name, street address, contact information, and the type of goods and services it offers. To register in SAM, a DUNS number and an NCAGE code are required. If you do not have these numbers, they must be obtained before registering. There is no cost involved, either for obtaining the numbers, or for registering in SAM. Interested parties are strongly encouraged to register their business as soon as possible to avoid any delay in making an award to the successful bidder.

Interested parties should contact GSO Procurement at the following email address to request a copy of the associated Statement of Work (SOW): londonproc@state.gov

Requests for additional information are due on or before 17:00 local time on February 4, 2022. Additional information will be sent to all requesting parties after this date.
